How To Use MD5 Summer

1. Visit the website http://www.md5summer.org/download.html and download the latest version of program.

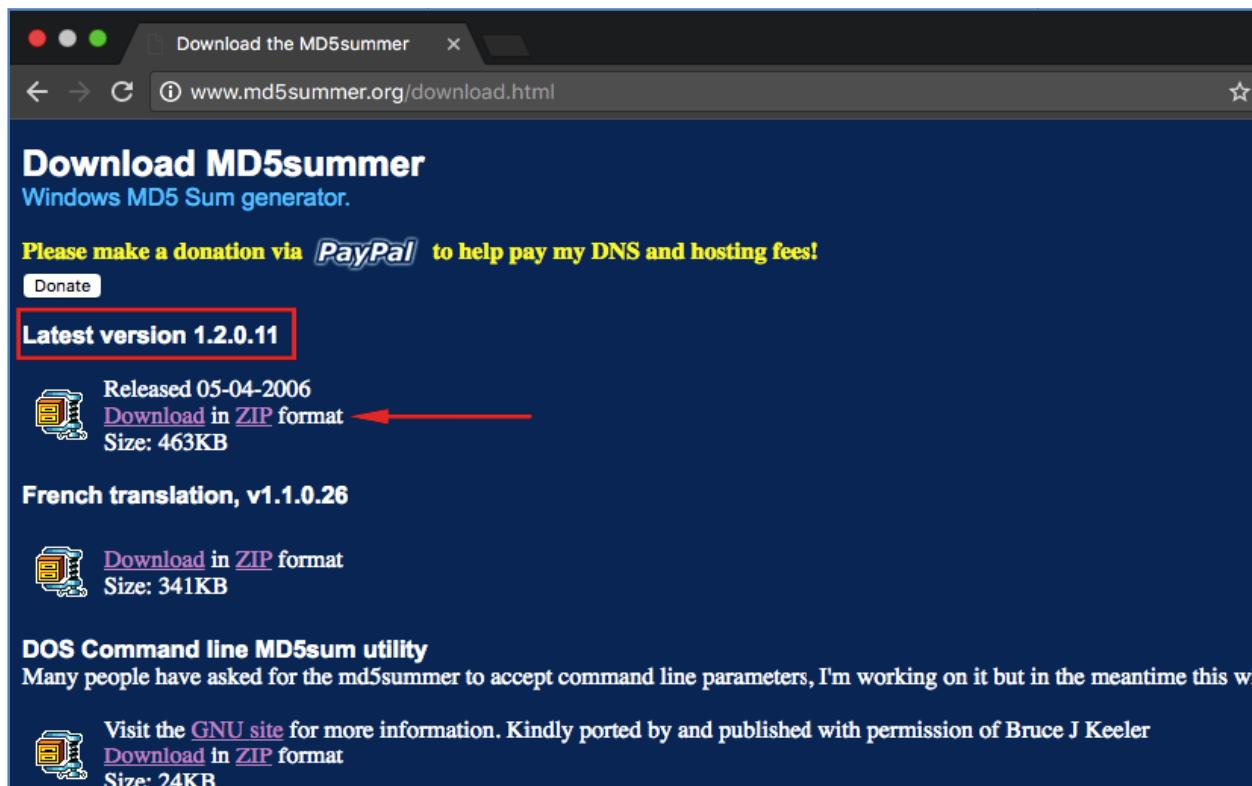

2. Decompress the file and store in your local hard disk.
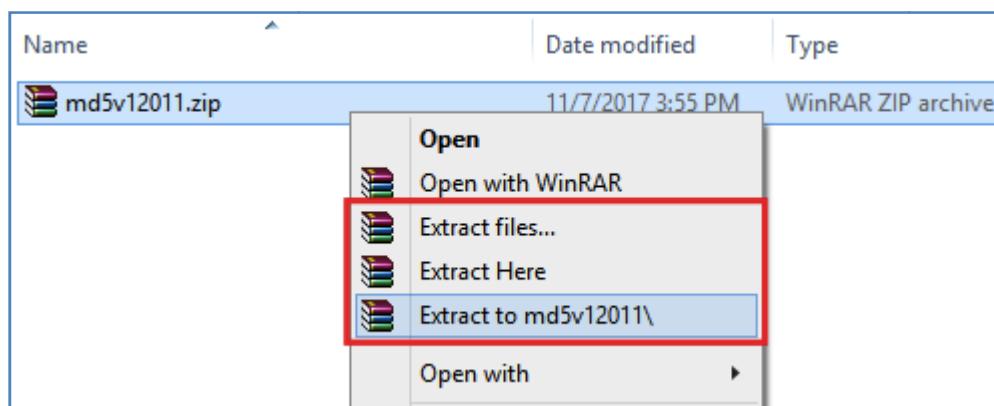

3. Create a Zip/Rar Archive of your audited code by selecting all files and adding them to archive.

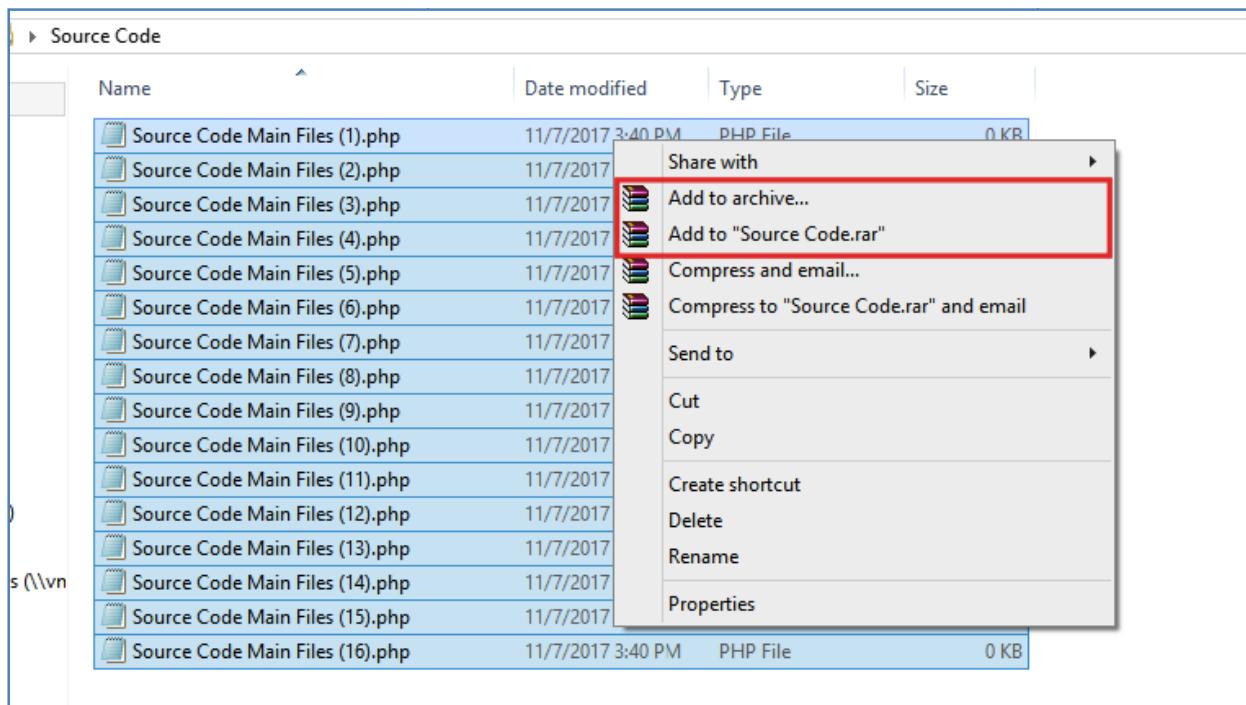

4. Final archive of audited code will be made. Please note the folder path in which the archive file is saved.
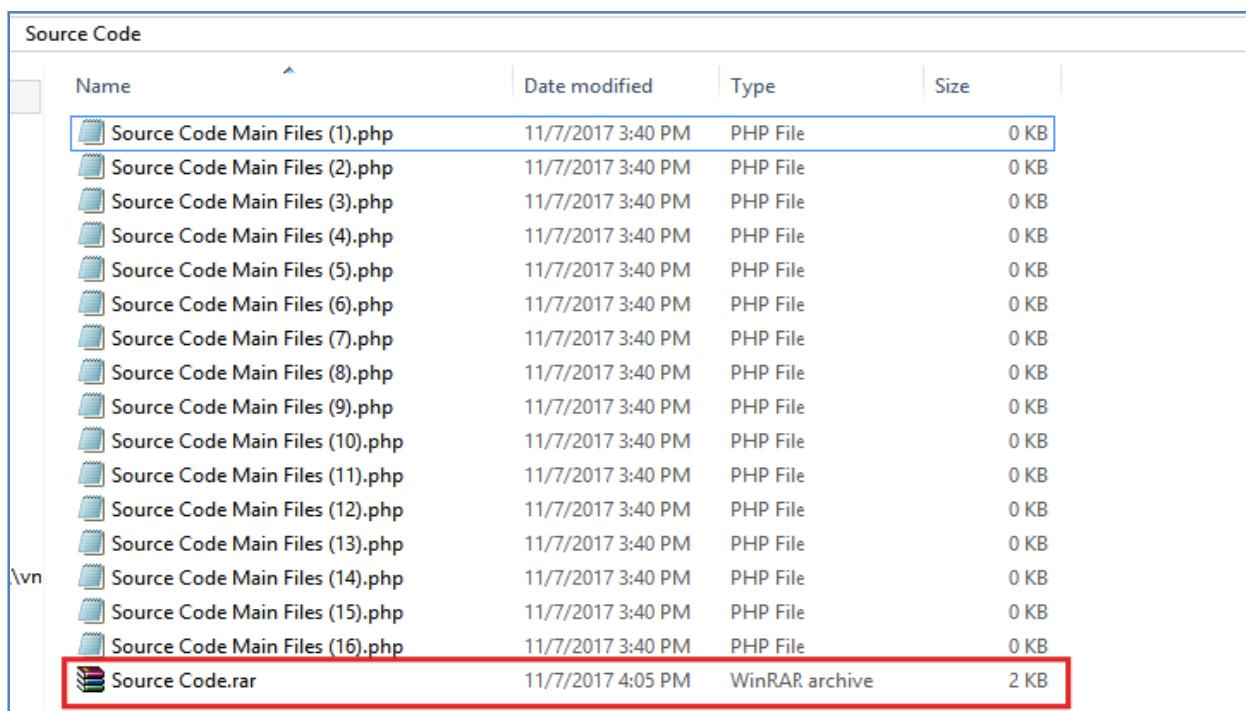

5. Run the MD5summer program, and the message will pop up if it is the first time you run the program, press Yes to process next step.

Name	Date modified	Type	Size
md5summer.exe	4/5/2006 6:53 PM	Application	840 KB

Confirm

'.md5' files appear to be associated with a different copy of md5summer. Should I associate them with this one?

Yes   No
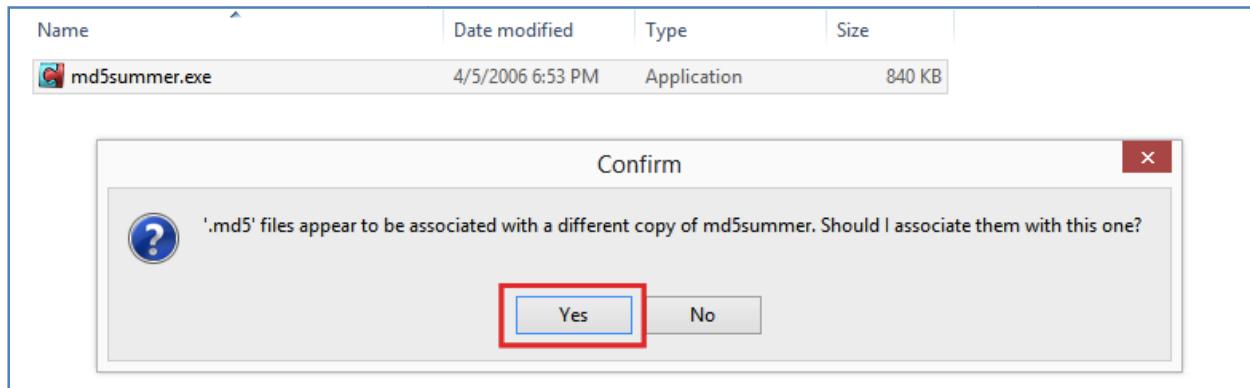

6. Select the Parent Directory in which the audited code archive is located and click Create Sums

MD5Summer

Please select the root folder:

- .oracle_jre_usage
- Contacts
- Desktop
  - Burp Suite Professional
  - Echo Mirage
  - Printout
  - Source Code   1
- Documents
- Downloads
  - Compressed
  - Documents
  - MD5
    - md5v12011
    - md5v12011.zip
